Styled-Components

Install

```
npm install styled-components
```

Example Usage

```jsx
const Movie = ({ movie }) => (
<Link to={`/${movie.id}`}>
<Poster src={`${POSTER_PATH}${movie.poster_path}`} alt={movie.title} />
</Link>
);

export const Poster = styled.img`
box-shadow:0 0 35px black;
`;

//here we are creating a Poster tag which is used in place of a img tag
```
